UK AND IRELAND  
FELLOWSHIP  
PROGRAMME

**Gilead UK and Ireland is proud to support initiatives to improve patient care in the fields of HIV, hepatitis B, invasive fungal disease and cystic fibrosis**

The **Gilead UK and Ireland Fellowship Programme** aims to encourage the development, exploration and dissemination of new ideas which generate and promote best practice in the delivery of patient centred care through innovative and reproducible models

**Applications for a Fellowship Programme grant will be accepted from 9th December 2011 to 31st March 2012.**

**The updated Gilead UK and Ireland Fellowship Programme website provides:**

- Further information about the Fellowship Programme
- The opportunity to apply for a Fellowship Programme grant through the online application form
- Information about previous projects which have received funding from the Fellowship Programme
- Video footage of previous grant recipients' project presentations at Best Practice Sharing Events (BPSEs) held in May 2010 & 2011 at the King's Fund
- Future BPSE information and registration details
- Information and news on key publications and conferences
