**PHE IFS Awareness and User Feedback Survey 2018**
The Imported Fever Service (IFS) has been running since 2012. PHE’s Rare and Imported Pathogens Laboratory and their NHS partners in the IFS are conducting an online survey (approx. 5 minutes) to assess how and why doctors use the Service and how it could be further improved in the future.
See Consultations page

**Healthcare professional survey – pharma communications strategies**
Do you want to influence how you communicate with pharma? This survey is around pharma’s relationship with doctors and what they feel is appropriate / optimal in terms of content / channels of communication. The idea is to raise awareness in the pharmaceutical industry of how doctors want to be communicated with.
See Consultations page

**UKCRC Tissue Directory and Coordination Centre Survey – Human samples in UK biomedical research**
The aim of this study is to better understand how and when UK-based biomedical researchers use human samples in their research. It also aims to capture any barriers to human sample access and use, including how these can be overcome.
